## MACHINE VISION & BARCODE READING SEMINARS

COMPLIMENTARY SEMINAR

## Introduction to Barcode Verification

Reserve your spot today!

Tuesday, December 11, 2018  
10:00 AM - 1:30 PM

Embassy Suites by Hilton Anaheim-North  
3100 E Frontera St  
Anaheim, CA 92806  
*Food and beverages will be provided.*

Join Chris Trlica, Application Engineer at Cognex, to learn more about barcode verification technology. This seminar will focus on the multiple topics related to grading your companies 1D and/or 2D codes. We'll also discuss standards for MIL-STD-130, and GS1.

### Topics to be covered:

- What is barcode verification
- Who needs verification
- Potential penalties, retailer, distributor, traceability, serialization
- Differences between Contract Compliant Verification and Process Control Metrics
- Developing a quality control policy
- Descriptions of barcode verifier tests (standards)
- Application specific standards
- Operating a barcode verifier
- Calculating barcode grades
- Barcode troubleshooting
- Calibrating and checking conformance
